

Patterned, Obscure & Textured Glass

Complete texture range — 20+ patterns, privacy levels 1-5, satin and sandblast

Overview

CSU Ltd supplies the full range of textured, rolled-pattern glass for privacy, decorative and light-diffusing applications. Patterns are rolled into the glass surface during manufacture, creating a permanent texture that cannot be scratched or worn off. Privacy levels range from Level 1 (minimal obscuration, primarily decorative) to Level 5 (fully obscure — maximum privacy). All patterns are available toughened and/or laminated for safety-critical locations.
